

Surfing to Hawaii with Just Two in Crew

J/100 is more than just a work of art with elegant modern lines. Ask any of the 150 owners worldwide how easy the J/100 is to sail and how confident they are outside the harbor in all kinds of weather... a boat that could even cross an ocean.

A California J/100 owner did just that, completing the 2007 Transpac Race of 2200 miles in just over 15 days, finishing 4th in the double-handed division. He commented, "The J/100 is very easy to sail. I have a six and a nine year old and wanted to teach them. After I'd done well in some overnight double-handed races, 2200 miles across the Pacific Ocean to Hawaii in this 33 footer didn't seem that much of a stretch. And, seaworthiness was never a concern. Close to the Transpac finish we surfed down huge waves in 24-26 knots of wind to hit our top speed of 23 knots!"

There is another dimension beyond beauty that places a boat above all the rest. And, that's how it sails. The J/100 is that boat.
