

Win a Stormy Fastnet with Only Two People?

Looking for a great boat that's easy to sail...even in the worst conditions... and built tough to get you home? Then, please take your hats off to the two person crews of J/105s *VOADOR* and *JUNEAU* for conducting the ultimate sea trial... completing the stormy 2007 Rolex Fastnet Race... as winners. Imagine 271 boats starting and only 60 finishing. 35-40 kt winds, steep seas, and cold temperatures. The two J/105s were the first and only finishers in their division. One skipper commented, "It's a good stable boat ... an absolute joy to sail. With gusts to 35 knots, we saw 18.7 kt speeds downwind, sustaining long surfs over several minutes at 14 knots plus." Need we say more? The J/105 has become the most popular "big-boat" one-design, family dayboat and weekender in the world, with over 650 active owners in 25 fleets in 10 countries. J/105 is more than just a boat. Think of all those new friends you'll meet as a member of the J/105 Class Association.
